

KEY FEATURES

- Standard reinforcement provides strength and durability
- Versatile modular design helps you make the most of your space
- Reduced-ligature ski feet protect flooring and facilitate movement

MATERIAL/FABRICATION

Carcass made from a mix of particle board and plywood with wood veneer feet. Ski feet designed to facilitate movement for use in multiples, if required, while also protecting flooring beneath. Gap left between base and floor to allow for easier cleaning and inspections. All cushioned areas are fixed to the base to ensure that they are not taken off and are made from fire retardant, CMHR (combustion modified high resilience) foam

TEST STANDARDS

- Fire retardant to BS 7176:2007 source 5
- Strength and stability tested to BS EN 15373:2007
