

KEY FEATURES

- Plywood reinforcement for added strength
- Fully enclosed base to prevent concealment
- Armless design assists de-escalation practices and reduces likelihood of damage

MATERIAL/FABRICATION

Constructed from a solid timber frame with plywood reinforcement for strength and durability. Strong (tested to BS EN 15373:2007) plywood reinforcement options offer excellent levels of durability and strength. The Reef has been designed with a reduced arm to assist staff with safe de-escalation practises. Interior made from fire retardant, CMHR (combustion modified high resilience) foam is safe for both users and staff. All fabric is fire retardant to CAL TB 116, 117 & NFPA 260 USA

TEST STANDARDS

- Fire retardant to BS7176:2007 source 5
- Strength and stability tested to BS EN 15373:2007
