

KEY FEATURES

- Heavily weighted to 180lbs to deter mishandling (other weight options available)
- Ergonomically designed armrests to assist standing and sitting
- Hygienic wipe-clean surface
- Wrap around arms help those with reduced mobility
- Water-resistant, UV-stabilized material which is 100% recyclable
- Suitable for outdoor use
- Polyethylene material is 100% recyclable
- Static load tested to a weight of 992lbs

MATERIAL/FABRICATION

Rotationally molded, durable polyethylene, one-piece construction provides excellent strength and stability. Flamed, textured finish further strengthens the fire-retardant, water-resistant, UV-stabilized shell. Small holes drilled in the seat make it suitable for outdoor use. Anti-microbial material gives high chemical resistance (e.g. ammonia, sodium hydroxide) throughout the product. Item is fully recyclable as polyethylene can be melted down to create a whole new product

TEST STANDARDS

- Fire retardant to CAL 133 and UL 94 HB
- UV resistance tested to UV 21+ stating it can withstand 21,000 sunlight hours

ASSEMBLY

Arrives assembled and ready to use

WARRANTY

Lifetime guarantee against all manufacturing faults

OPTIONS

- Floor fixing solution
- Upholstered seat 1RYU-02S (makes product not suitable for outdoor use)
- Lightweight model (35lbs)

COLOR/FINISH

INSTALLATION/FITTING

Additional weighting can be carried out prior to delivery. Please advise if floor fixing is required when ordering as fixed items are made differently. All products must be fitted carefully following Pineapple's product instructions (where available). If not, any guarantee is at risk of becoming null and void

MAINTENANCE

Avoid using abrasive materials or cleaning agents, solvents, steam cleaning or jet washing. Use bleach and chlorine disinfectant with caution and avoid placing in close proximity to sources of heat. Read more here <https://us.pineapplecontracts.com/upholstery/care-guidance/>

DISCLAIMER

Extreme temperature changes (e.g. a cold night followed by a warm sunny day) may cause air inside the product to expand, causing short-term changes to its shape .

Due to the nature of the rotational molding process, flat surfaces on Ryno[®] products may feature slight undulations which do not detract from the product's strength or durability.
