

KEY FEATURES

- Ergonomically designed to give excellent comfort
- Water-resistant, UV-stabilized material which is 100% recyclable
- Suitable for outdoor use
- Polyethylene material is 100% recyclable

MATERIAL/FABRICATION

Rotationally molded, durable polyethylene, one-piece construction provides excellent strength and stability. Flamed, textured finish further strengthens the fire-retardant, water-resistant, UV-stabilized shell. Small holes drilled in the seat make it suitable for outdoor use. Anti-microbial material gives high chemical resistance (e.g. ammonia, sodium hydroxide) throughout the product. Item is fully recyclable as polyethylene can be melted down to create a whole new product

TEST STANDARDS

- Strength and stability tested to BS EN 16139:2013 - Level 2 (severe contract use)
- Tested to ANSI/BIFMA X5.5:2012 standards
- Fire retardant to BS 5852:2006 ignition source 5, to CAL 133 and UL 94 HB
- UV resistance tested to UV 21+ stating it can withstand 21,000 sunlight hours

ASSEMBLY

Arrives assembled and ready to use

OPTIONS

- Upholstered seat and back pads (unsuitable for outdoors)
- Floor fixing solutions
- Linking brackets to connect chairs
- Weighted model (66lb)

COLOR/FINISH

INSTALLATION/FITTING

Additional weighting can be carried out prior to delivery. All products must be fitted carefully following Pineapple's product instructions (where available). If not, any guarantee is at risk of becoming null and void

MAINTENANCE

Avoid using abrasive materials or cleaning agents, solvents, steam cleaning or jet washing. Use bleach and chlorine disinfectant with caution and avoid placing in close proximity to sources of heat. Read more here <https://us.pineapplecontracts.com/upholstery/care-guidance/>

WARRANTY

Lifetime guarantee against all manufacturing faults

DISCLAIMER

Extreme temperature changes (e.g. a cold night followed by a warm sunny day) may cause air inside the product to expand, causing short-term changes to its shape .

Due to the nature of the rotational molding process, flat surfaces on Ryno® products may feature slight undulations which do not detract from the product's strength or durability.
