

KEY FEATURES

- Plywood reinforcement, including a fully enclosed base to prevent concealment
- Versatile modular design helps you make the most of your space
- Reduced-ligature ski feet protect flooring and facilitate movement
- Seat static weight tested to 440 lbs.

MATERIAL/FABRICATION

Carcase made from a mix of particle board and plywood with wood veneer feet, fully reinforced with plywood for extra strength and anti-stash enclosed base. Ski feet designed to facilitate movement for use in multiples, if required, while also protecting flooring beneath. Gap left between base and floor to allow for easier cleaning and inspections. All cushioned areas are fixed to the base to ensure that they are not taken off and are made from fire retardant, CMHR (combustion modified high resilience) foam

TEST STANDARDS

- Fire retardant to BS 7176:2007 source 5
- Strength and stability tested to BS EN 15373:2007
