

DESIGNED FOR PEACE OF MIND

Pineapple

IT ALL BEGAN IN

Our founder, William Hathorn, started our company in a workshop in London, England. Originally trading as Pine Productions, based on the popular wood we used to build our furniture, we crafted strong, durable products using traditional carpentry methods. But as our business grew and we began to provide furniture in a variety of materials for the healthcare market, the name no longer fitted. So, with a nod to our beginnings, we took a bold step and became Pineapple.

As our reputation for designing for demanding environments grew, so did demand for our products and we soon expanded into new premises, doubling our production capacity. We started creating technically advanced furniture for secure settings like mental health units and prisons, as well as lower risk spaces like hospitals, healthcare and education facilities.

1975

TODAY

45 YEARS OF INNOVATION

We continue to create innovative furniture to deliver real-life solutions for our customers and, from initial concept right through to manufacture and delivery, we have full control of the process. All of our designs are either manufactured by us or by our carefully chosen partners who produce our furniture under license to meet our precise specification and design.

While our business is now international and our vision more ambitious than ever, we're still a family business at heart. Our work ethic and attention to detail is exactly the same as when we started in 1975.

THE PINEAPPLE PROCESS

We listen

01

We listen more widely and more deeply to our customers' unique set of challenges; they might be safety concerns, maintenance issues or limited space. With forty years of experience under our belts, we're good at listening and know the right questions to ask.

02

understand

Drawing on the expertise of our Global Advisory Board and our knowledge of best practise, we identify solutions that fit each brief. Then we define exactly what your furniture needs to deliver purpose for your environment, taking physical, functional and emotional needs into account.

03

match

Now we understand your environment and precise needs, we can match you with the right products that will solve them. With hundreds of ranges to choose from, there is usually a solution that fits but if there isn't, we'll work with you to create one.

04

We deliver mindfully designed furniture that is exactly fit for purpose. We continue to learn from each new project, building the knowledge we gain into our new and existing product ranges to make them safer than ever.

deliver

PROJECTS

The number of US projects we have been involved with has increased by over 54% on last year, resulting in hundreds of completed projects all over the USA.

By taking time to listen, and understanding what really matters, we take outdated and potentially hazardous spaces and make sure even the smallest of details are designed for your peace of mind.

We continue to learn from each new project, building on over 40 years' experience.

Keep an eye on our website for the latest projects

THE FULL PACKAGE

Our extensive furniture range can be used to furnish all areas of a modern facility, helping to create a safer environment for patients, staff and visitors.

Dining area
Stress can be heightened during mealtimes, so our furniture is designed to minimize conflict as well as withstand challenging behavior. Our Ryno® activity table can be weighted to prevent overturning and preserve safety.

Quiet lounge
Modular reinforced seating like our Snug Plus range can help to encourage social inclusion, while soft foam Contessa shapes and cozy Boden bean bags provide a safe space for quiet reflection.

Waiting area
Space efficient, easy-to-clean designs like Skye Plus provide comfort for visitors while enabling staff to fulfil their duties more efficiently.

Bedroom
Bedrooms are private spaces where round-the-clock observation may not be practical. Our safest bedroom ranges are designed to minimize ligature risks and reduce opportunities for damage.

Outdoor space
Products in our Ryno® range are totally water-resistant and UV-stabilized, and can be heavily weighted, making them a safe and durable option for outdoor spaces.

Day room
Lockable wall and floor mounted TV cabinets with durable polycarbonate screens offer protection for equipment, and there is extensive choice in our broad range of sofas.

SOVIE

This range has been designed to provide an ideal safety solution for beds in challenging environments.

Fixed or removable restraints available with fully customizable number of fixings and locations [below](#)

Infill panels can be used to minimize concealment opportunities when positioned against a wall [above](#)

Strength
Internal support ribs provide extra strength and durability

Water resistance
Sovie's one-piece mattress platform has no joints or crevices through which liquid can permeate, preserving hygiene and infection control levels

Kydex material
The Sovie bed is coated in Kydex* - a tough plastic found in aircraft interiors. It has an extremely durable finish which withstands impact and is resistant to tough chemical cleaners. It is also flame-retardant and anti-bacterial.

**white finish uses Kydex, hickory uses Epotesch thermoformed plastic*

RYNO

ORDER GUIDE

Due to the number of options available with our versatile Ryno range, there are many different product codes. This section lists each product in the range with its corresponding product code to note when ordering as well as informing of color options.

Of course, you don't need to know the precise code when ordering, you can simply ask for a weighted blue dining chair, but some of our customers prefer to use codes when specifying particular projects.

UPHOLSTERY

We provide an extensive range of water-resistant fabrics and vinyls to ensure that you will find the right finish for your furniture.

Fabrics

A durable option which combines the comfort of soft fabric with practical water-resistant properties. Please be aware, these fabrics are more susceptible to stains than vinyl.

Call us to request your fabric swatch cards to see the full choice available

Vinyls

Hard wearing and water-resistant, leather-effect vinyls can be wiped clean which makes them a hygienic and practical option for healthcare environments.

Call us to request your fabric swatch cards to see the full choice available

Although we offer a comprehensive range of fabric options, we can use customers' own fabric, or COM, if required.

Check our statement of line pages at the end of each section for COM yardage information for each product.

Please note: Cracking and stickiness on vinyl fabrics are known issues to fabric manufacturers. As furniture manufacturers, Pineapple cannot accept responsibility.
