

CADREGA

Compact, practical
and versatile seating

Pineapple

Designed by
Sophie Concadoro

Cadrega is a versatile new family of chairs designed for healthcare environments.

Elegantly styled and compact in size, Cadrega is the perfect bedside seating option for patients and visitors, as well as larger spaces like receptions and waiting areas.

The lounge range comprises low and high back models along with a footstool, and a bariatric version with a wider seat.

A matching dining range is also available, with chairs which are stackable for easy storage.

All chairs feature a hygiene gap between the back and seat helps to prevent dust and dirt becoming trapped, making thorough cleaning easier, and are available in a wide range of water-resistant, anti-microbial upholstery.

CADREGA LOUNGE

Seat static weight tested to

Cadrega lounge low back chair
