

RYNO[®]

Loveseat

Pineapple

When we first developed our Ryno® range, our goal was to create furniture which combined dependable safety and durability with a warm and welcoming aesthetic.

The newest addition to the Ryno® range - the Loveseat - continues to embody this ethos. Behind its slender profile and soft curves, there lies a strong interior construction which is built to withstand the rigors of daily life in a psychiatric ward or prison.

The wide stance of the Loveseat allows users to sit side-by-side with their peers and caregivers, helping to build relationships and support therapeutic aims.

The generous width of the product also comfortably supports bariatric users while avoiding the stigma that may associated with dedicated bariatric furniture.

The sloped arms and low back height are designed to minimize ligature risks, and for added safety the product can be heavily weighted to 272 lbs.

DESIGNED FOR PEACE OF MIND

Integrated drainage channel allows water run-off

Lifetime guarantee

Like all Ryno products the Loveseat is protected by a lifetime guarantee against manufacturing faults, giving you total peace of mind.

Waterproof

Made from a single piece of rotationally molded polyethylene with no joins, the Ryno Loveseat is totally waterproof.

Damage resistant

The single-piece construction helps to distribute stress throughout the product, making it extremely resistant to damage.

Hygienic

Ryno's polyethylene material is naturally resistant to bacteria and bedbugs by providing no organic matter for bacteria to feed on.

Recyclable

Made from 100% polyethylene, Ryno products can be returned to Pineapple at the end of their life to be recycled. Our table bases are made from 100% recycled content.

*Shaped to reduce
ligature risks*

RYNO® LOVESEAT

Ryno Loveseat
 1RY2-123
 31.8" H | 58.8" W | 26.5" D
