MATERIAL/FABRICATION

Rotationally moulded, durable polyethylene, one-piece construction provides excellent strength and stability. Flamed, textured finish further strengthens the fire-retardant, water-resistant, UV-stabilized shell, ideal to be used indoors and outdoors. Hygienic wipe-clean surface, quick to dry ready to be used again quickly. Anti-microbial material gives high chemical resistance (e.g. ammonia, sodium hydroxide) throughout the product. Item is fully recyclable as polyethylene can be melted down to create a whole new product.

There will be some color variation from batch to batch this is the nature of the reclaim polymer.
