

KEY FEATURES

- 50% recycled content made from fishing gear
- 23% reduction in energy required to manufacture
- 16% reduction in carbon footprint
- Heavily weighted to 143lbs as standard to deter misuse (other weight options available)
- Wipe-clean material protects throughout the product
- Water resistant, UV stabilized material makes items suitable for outdoor use

MATERIAL/FABRICATION

Rotationally molded, one-piece construction provides excellent strength and stability. 50% recycled PE + 50% virgin PE and additives make up the composition of the Ryno OceanGreen range.

This product contains a range of post-consumer recycled (PCR) raw material originating from end-of-life maritime gear. The fishing nets and equipment are collected, cleaned, sorted and re-used by upgrading the material to a higher quality composite.

OPTIONS

- Available in our unique OceanGreen color only
- Lightweight (46lb) model available 1RYR-00-0G
- Not floor fixable due to the rocking motion
- Linking bracket to connect chairs (please specify at order stage)

COLOR/FINISH

[Core color] OceanGreen

DELIVERY

For information regarding leadtimes, please contact our sales team inquiries@pineapplecontracts.com.

ASSEMBLY

Arrives assembled and ready to use

INSTALLATION/FITTING

Additional weighting can be carried out prior to delivery. Please advise if floor fixing is required when ordering as fixed items are made differently. All products must be fitted carefully following Pineapple's product instructions (where available). If not, any guarantee is at risk of becoming null and void

WARRANTY

Lifetime guarantee against all manufacturing faults

MAINTENANCE

Avoid using abrasive materials or cleaning agents, solvents, steam cleaning or jet washing. Use bleach and chlorine disinfectant with caution and avoid placing in close proximity to sources of heat. Read more here <https://us.pineapplecontracts.com/upholstery/care-guidance/>

DISCLAIMER

Extreme temperature changes (e.g. a cold night followed by a warm sunny day) may cause air inside the product to expand, causing short-term changes to its shape .

Due to the nature of the rotational molding process, flat surfaces on Ryno® products may feature slight undulations which do not detract from the product's strength or durability.

There will be some color variation from batch to batch this is the nature of the reclaim polymer.
