

RYNO[®]

Wall

Desk

Pineapple

Our Ryno® range has a proven track record in transforming high-risk spaces into safer, more human-centred environments by combining extraordinary resilience with organic styling and a therapeutic color palette.

The Wall Desk is the latest addition to the Ryno bedroom range, where products are designed for use in private spaces where close observation is not always possible. In order to protect users from harm, the edges of the desk are softly rounded and gently tapered to minimize ligature risks.

The Wall Desk is wheelchair accessible (compliant with ADA and DDA requirements) and can be mounted at different positions on a wall, adjusting the desk top height to suit the user.

Like all Ryno products, the Wall Desk is rotationally molded to form a single piece with no joints or seams which would otherwise be a point of weakness. The single-piece construction also minimizes concealment opportunities as well as making the product 100% waterproof.

RYNO® WALL DESK
