Reduced-ligature  
Bathrooms

in collaboration with **ONVO**

# Pineapple

As one of the most private areas in a mental health facility, a bathroom is also one of the highest risk spaces.

Lower levels of supervision relative to other spaces combine with a greater number of ligature risks to create a potentially dangerous environment for people in crisis.

In order to protect people from harm, bathroom products must be designed to be as safe as possible by minimizing ligature risks, and like all healthcare environments, infection prevention and control are of key importance.

The Arc washroom range sensitively addresses ligature concerns through its flowing curved design, while lending a serene aesthetic to its surroundings.

Manufactured from a non-porous, stain resistant solid surface material, Arc products offer excellent hygiene properties. The seamless design eliminates dirt-traps which are commonly found in traditional fixtures.

Arc products are secured with innovative non-visible fixings, minimizing opportunities for tampering.

## REDUCED LIGATURE DESIGN

- Seamless design
- Sloping edges
- Radiused corners
- Hands-free taps

## HYGIENIC SEAMLESS SURFACE

- No dirt traps
- Non-porous surface
- Stain-resistant material

## NON-VISIBLE FIXING METHOD

- Innovative magnet-activated fixing method
- Fixings are totally hidden to prevent tampering

→ 550 lbs. clamping force per fixing ←

## ALL-IN-ONE SIMPLICITY

### ARC SYSTEM

- Includes:
- Mirror
  - Shelf
  - Tap sensors
  - Taps
  - Basin
  - Integrated IPS

Slides away from the wall

For quick and simple maintenance
