

ACUMEN CPAP STORAGE CABINET

1AU-CPAP

14.4H | 18.1W | 13.8D (in)

Door Panel: 0.8in

All Other Panels: 0.7in

Weight: 28lb

KEY FEATURES

- Heavily weighted to help deter misuse
- Reduced-ligature design features
- Ventilated to allow heat to escape
- Removable vents can be repositioned as needed to accommodate different tubing locations
- Key-lockable for added security
- Can be wall-mounted or countertop-mounted

MATERIAL/FABRICATION

Constructed from a heavily weighted frame using a combination of melamine-faced particleboard (MFC) and vinyl-wrapped medium-density fiberboard (MDF) for strength, durability, and long-term performance. Exposed edges are protected with durable 2 mm PVC edging to help prevent moisture intrusion, while rounded corners enhance safety.

Designed with safety in mind, the cabinet features scalloped handles, curved door tops, and full-length brass-plated steel piano hinges to help reduce ligature risks. Anti-tamper security fixings are included as standard.

The cabinet uses cam-and-dowel construction with high-strength adhesive for added structural integrity. Ventilation components, including the grommets and Snap-Fix vent, are made from durable PETG. The locking mechanism combines die-cast and steel components with a steel strike plate for added strength, security, and reliability.

OPTIONS

- Available with a left-hand or right-hand door
- Vents are positioned on the hinged side of the door

TEST STANDARDS

- Surface durability tested to BS 6250
- Surface spread of flame tested to BS 476: Part 7: 1997
- Surface burning characteristics tested to UL 723 (U.S. standard)

COLOR/FINISH

Acumen Gray comes standard in Natural Rockford Hickory (K086), with a gloss light gray vinyl-wrapped door.

ASSEMBLY & INSTALLATION

Ships fully assembled and ready to use. Please specify at the time of ordering if wall mounting is required. Where applicable, products must be installed by Pineapple to maintain warranty coverage.

When installing the Snap-Fix vents, apply gentle, even pressure. To remove a vent, carefully push it out from inside the cabinet.

MAINTENANCE

Visit the care and maintenance section of our website for additional information.

WARRANTY

7-year warranty.
