

ACUMEN

CPAP Storage

Cabinet

Pineapple

Designed to complement the Acumen range, the CPAP Storage Cabinet provides secure, adaptable bedside storage for a wide variety of CPAP machines. It can be positioned neatly on top of a bedside cabinet or mounted directly to the wall, with left- or right-hand door options available to suit different room layouts.

Developed specifically for high-risk, challenging environments, the unit incorporates reduced-ligature features and minimized concealment opportunities throughout. Safety-focused details include a scalloped handle, curved top, continuous piano hinges

and anti-tamper security fixings. Secure removable ventilation inserts allow the cabinet to accommodate different CPAP tube positions while preventing unauthorised removal by patients. The result is a practical, robust and considered storage solution that supports both patient safety and ease of use for staff.

ACUMEN CPAP STORAGE CABINET	
-----------------------------	--

Acumen CPAP storage cabinet
1AU-CPAP
14.5"H | 18.2"W | 13.9"D (in)
